

Production Rider / Check List

These are just a few details some of which have already been mentioned in the now very famous and well-written rider by Jos Grain just to make sure nothing is overlooked. This check list should be read at least 1 week before arrival and again the day before arrival. For the current rider please go to www.josgrain.com this is the most up to date rider information and should be looked at just in case you are working from an old rider which seems to happen quite often these days, in any case the website is very entertaining and should not be overlooked but please don't get too carried away whilst visiting and remember why you went there in the first place.

Stage

1. Can we please make sure that Iggy's monitors (wedges) are off the front of the stage on flight cases, or such like sturdy supports and strapped to the main stage construction or better still if a bay can be built to accommodate both wedges.
2. 2 sets of stairs to stage height, with handrails and lights stage left and stage right (when applicable)
3. Iggy & The Stooges will enter on stage left always, please accommodate this at all times and write this into your final plans.
4. Please keep stage left clear and free from any obstructions and that includes any guests, liggers or such like people who have no business being there from 30mins to Iggy & The Stooges going on stage until 30mins after. Only relevant stage personnel who have business there should be there, please station one security guard at this position to work under the supervision of the Tour Manager!
5. Any guests/artists on stage should be kept to a minimum and on stage right only please. Would be advisable to post signs and have your security advise no cameras of any sort on stage unless agreed in advance. I am sure you will agree this will keep unnecessary, ongoing annoyance and time wasting for band, stage and security personnel, there is nothing worse than having to tell people through out the whole show to put their cameras down and stop taking pictures as well as becoming very unpopular in the process, it may lead to some unpleasantness and unnecessary injuries.
6. Camera platforms and other camera positions to be agreed in advance (when applicable) again see rider.
7. Please have at least one large trash bin at stage left and one at stage right.
- 8. Stage Drinks** – Please have at least one case (24 small bottles) of still water and 24 towels available and given to either Jos Grain or Chris Wujek.

Dressing Rooms and Offices

1. Tour Manager/Production Office. At least one direct lines plus ADSL or Wi Fi with relevant ID/Passwords if applicable. Water/soft drinks, Chairs, Tables, Power, Key, waste bins.
2. Two Band Dressing Rooms. Each to have:
Chairs, sofa, tables, clothes rail, hangers, full length mirrors, toilets, showers, wash hand basins, heating/air conditioning, curtains, soft lighting, power, keys and as per detailed rider.
3. Towels. 40 towels (4 Large in Iggy's room, 12 large in band room & 24 medium size for stage).

Please have dressing room area in a fairly quiet and secluded part of the backstage whenever possible with private toilets in close proximity if not within dressing rooms.

Security

1. Please have 2 security personnel posted at dressing room access, in some occasions I am sure we can work with one but this can be agreed on the day if need be.
2. Please have security and stage manager close down stage left access 30min before Iggy & The Stooges performance and remain closed for 30mins after to allow a fast and safe stage clearance change over. We do understand this could vary according to conditions.
3. There will be other security issues to be dealt with on a day-to-day basis and mainly relating to stage activity, this will be explained once on site and a daily meeting should be had with head of security and Eric Fischer our Road Manager.

Transportation

Large Sedan or SUV for Iggy with blacked out windows and 2 Voyager type vehicles with blacked out windows will be required, 1 for band party (4 people) & 1 for crew party (5 People) + Baggage van for all transfers (Baggage van required only for airport/hotel/airport transfers) although a certain amount of cases will need to be moved to/from hotel/venue/hotel. All finer details regarding day-to-day vehicle movements can be discussed nearer the date. Drivers should be competent, English speaking, do not talk continuously or not at all would be preferable, are coherent, not smelling or drinking alcohol at any time, non smoking in the cars, using mobile phones to a minimum whilst in the car, NO MUSIC playing in any of the vehicles, knowledgeable of the areas they are driving us to/from, do not get over excited/starstruck, do not turn around to look in the back of the car whilst driving and most importantly have done this before. Name and mobile numbers will be required at least a day before touring party arrives in the country. Please advise drivers not to ask for autographs to Iggy Pop directly whilst in or out of the car. Anyone meeting us at airports/station or other and need to have a sign it should read MINDROOM, no personal or band names to be on any boards. On a final note can you please make sure drivers have small bottles of water available in all vehicles.

Please do not leave anything to chance, if you have any questions please contact as necessary:
